Professional Summary

Experienced Senior Full Stack Developer with over 10+ years of expertise in web development. Proficient in PHP, MySQL, HTML/CSS, JavaScript, jQuery/Ajax, and AngularJS, with a strong foundation in Firebase and Google Cloud Platform. Extensive experience with popular frameworks like Laravel, CodeIgniter, and WordPress, including full-stack development. Skilled in integrating third-party services such as Google APIs and Stripe Payment Gateway. Adept in server management with a solid understanding of Apache server installation. Experienced in leading teams, providing mentorship, and conducting code reviews. Passionate about delivering high-quality web applications that meet both client and user needs.

Employment History

Senior PHP Developer, Ventuno Technologies (P) Ltd, Chennai

Aug, 2019 - Jan, 2026

- Manage and enhance backend for OTT platform applications, ensuring high performance and scalability.
- Develop and maintain REST APIs for web, mobile, and CTV platforms using PHP, MySQL, and CodeIgniter.
- Integrate third-party services, including Stripe Payment Gateway, for secure transactions.
- Collaborate with cross-functional teams to implement client-driven features.
- Conduct code reviews and mentor junior developers to optimize workflows and enhance team productivity.
- Manage server setups, including Apache installations, for reliable project hosting.
- Implemented Memcache to improve application performance by reducing database hits.
- Utilized AI tools (ChatGPT, Grok) for CI3 to CI4 migration, streamlining development processes.
- Written Postman Tests for REST APIs to ensure functionality and reliability.

PHP Developer, O Clock Software Pvt Limited, Chennai

Apr, 2014 - Jul, 2019

- Developed dynamic websites and applications using PHP, MySQL, and JavaScript, with a focus on full-stack development.
- Utilized Laravel framework for building scalable web applications.
- Created custom WordPress themes and plugins to meet diverse client needs.
- Integrated Stripe Payment Gateway for secure online transactions.
- Implemented web services for cross-platform communication.
- Enhanced user experience with Google Places API integration for location services.
- Worked with Google Cloud Storage for reliable, scalable client storage solutions.
- Contributed to various projects, including e-commerce and corporate websites, through direct client collaboration.
